

NEW Whisper Touch™ Hinge with SureMount™ Installation System

KraftMaid is always investing in ways to improve the quality of our products. In partnership with leading hardware manufacturer Blum®, we've improved our Whisper Touch® hinge by adding the best-in-class SureMount™ Installation System – a two-piece design that allows installers to remove cabinet doors without tools. Simply press a release pin on the back of the hinge and doors come off. Just as easily, they securely clip back in place.

Benefits

- **Functionality** – Soft-close (features on/off switch), both full and partial overlay options, and improved 6-way adjustment.
- **Easy Installation and Removal** – Our new hinges allow for quick and hassle-free installation, saving time and reducing costs.
- **Efficient workflow** – Installers can easily remove and replace doors during installation and repairs, enhancing overall project efficiency.
- **Minimal tools required** – Installation and removal can be completed by hand, making it ideal for a fast, simple solution on the job site.
- **Reduced risk of damage** – The new hinge reduces the chance of damaging the door or cabinet face frame during installation or adjustments.

There's no end to what we'll do to make the highest quality cabinetry.
